

Kavre School for the Deaf – Banepa, Nepal

This school for the hearing-impaired has 80 students and is located about an hour's drive from Kathmandu. We are currently partnering with Rotary to bring hearing-aids to all of the students at the school who can benefit from them. In addition to that, we are initiating a teacher-support fund as many of the teachers at the school are either underpaid, or not paid at all. Donated funds will be put in a pool to be divided between the teachers. We are also starting a student sponsorship program at the school. For only \$150 per year, you can sponsor a student's school fees, books and uniform! We need funds to support kitchen improvements and other facilities improvements at the school.
